

## ECO-ACTIONS IN SCHOOL

To promote ecology in school, I've thought about a few things.

We can have this kind of box:

We will put inside papers which verso has not been used for them to become draft papers.

### Cool because:

- ✓ When there is a test and students need draft paper, teachers can give them paper from the box instead of taking a new sheet of paper.

### I suggest:

Each room has a paper box. This will make us use less paper.

## LET US BE GREEN PEOPLE!!!
