

Daily ecological actions

By Odilia Miam(4C)

Pollution

Pollution is a big problem to our environment. It destroys the wildlife. Be a part of the solution to pollution. Here are some simple things to protect it :

- Reusing things that are still good for use.
- Recycling everything that you can recycle .
- Recycle your unwanted phones and gadgets.
 - Buy recyclable products.
- Don't throw plastics away because they can be recycled.
- Don't throw organic waste away, but use it as compost.

Water

Water is very important for our lives. It's essential to our daily life in many ways. Here are some simple things to do in order to protect it :

- Turn off water while brushing your teeth because it wastes a lot of water.
- Install a low-flow toilet and don't flush it more than necessary.
- Choose and use your appliances wisely.
- Don't leave the tap running needlessly.

Electricity

Electricity is one of those inventions that have changed our daily life and without it, most of the things that we use everyday simply could not work. Here are some simple things to save it:

- Insulate your walls and ceilings.
- Modernize your windows.
- Be careful not to overheat or overcool rooms.
- Use less hot water by installing low-flow shower heads.
